14% of your membership dues goes towards a subscription to the **California Parks & Recreation** magazine. In the past, association dues generally have been deductible as a professional or business expense. The Omnibus Budget Reconciliation Act of 1993 eliminates the deductibility of lobbying expenses, including the portion of dues paid to a professional association attributed to lobbying. Although the Internal Revenue Service has not yet clearly defined "lobbying expenses," it is estimated that 10% of your dues are nondeductible for federal income tax purposes only. Please consult your tax advisor for further information.
